Rho began as a private company providing statistical analysis and data management services and, since then, has grown into a full-service contract research organization (CRO). Rho has supported 100+ pharmaceutical, biotechnology, and medical device companies taking their new products and devices from concept to submission.

IN 1984

Rho Federal Systems Division (RhoFED) was established to recognize its increasing interest in providing services to the U.S. Government. Our unique mix of federal and commercial projects has made us a strong partner to a myriad of Government clients.
